Fair Games=Rich Teams

Team Formation

This program utilizes the book *Whale Done* by Ken Blanchard to support the learning process. We also encourage assessments as part of the program.

Focus:

To build high performance teams, we must first know what makes a team, the different types of teams and what motivates each and every person to be a high performing team member. Management must embrace the qualities as well.

Attendees will learn:

- What types of teams exist...
- The stages of teams and their performance in each...
- Ways to encourage team performance....
- How to motivate the team and it's members...
- What it takes to build a high performance team...
- What happens after the team has reached its goals!
